The world is filled with infinite knowledge, and there are countless things we never thought we needed to know. But once we learn them, they can change our lives in surprising ways.

Here's a comprehensive guide to the things you never knew you needed to know:

### Things About the Human Body

- The average person produces about 1 liter of saliva per day.
- Your tongue is made up of eight different muscles.
- The human body contains enough iron to make a small nail.
- Your stomach acids are strong enough to dissolve razor blades.

- You lose about 50,000 skin cells every day.

## Things About the World Around You

- The Earth's population is about 8 billion people.
- There are about 108 billion stars in the Milky Way Galaxy.
- The speed of light is about 299,792,458 meters per second.
- The average temperature of the Earth is about 14 degrees Celsius.
- The world's largest ocean is the Pacific Ocean.

The world is a vast and diverse place.

### **Things About History**

- The first humans appeared on Earth about 200,000 years ago.
- The Great Wall of China was built over a period of 2,000 years.
- The first airplane was flown by the Wright brothers in 1903.
- The first computer was invented in 1946.
- The first person to walk on the moon was Neil Armstrong.

## Things About Science

- Matter is made up of atoms.
- Energy cannot be created or destroyed.
- The universe is expanding.
- Black holes are regions of space where gravity is so strong that nothing, not even light, can escape.
- Quantum mechanics is the study of the behavior of matter at the atomic and subatomic level.

Science is the study of the natural world.

### **Things About Culture**

- There are about 6,500 languages spoken in the world.
- The most popular sport in the world is soccer.
- The most popular food in the world is rice.
- The most popular religion in the world is Christianity.
- The most popular musical instrument in the world is the guitar.

This is just a small sampling of the things you never thought you needed to know. The world is filled with infinite knowledge, and there's always something new to learn.

So never stop learning. The more you know, the more interesting and fulfilling your life will be.
