- **Reading Comprehension:** These questions ask you to read a passage and then answer questions about the passage.
- **Sentence Completion:** These questions ask you to complete a sentence by choosing the best word or phrase from a list of options.
- **Vocabulary:** These questions ask you to define a word or phrase.
- **Analogies:** These questions ask you to find the relationship between two words or phrases.

To prepare for the critical reading section, you should focus on developing your reading comprehension skills. This means practicing reading different types of texts and identifying the main idea and supporting details. You should also focus on building your vocabulary and learning how to use context clues to figure out the meaning of unfamiliar words.

The writing and language section of the PSAT 10 is designed to measure your ability to write and use the English language effectively. The section includes two different types of questions:

- **Multiple Choice:** These questions ask you to choose the best answer from a list of options.
- **Essay:** This question asks you to write an essay on a specific topic.

To prepare for the writing and language section, you should focus on developing your grammar skills and your ability to write clear and concise prose. You should also practice writing essays on different topics.

The math section of the PSAT 10 is designed to measure your ability to solve different types of math problems. The section includes four different types of questions:

- **Multiple Choice:** These questions ask you to choose the best answer from a list of options.
- **Grid-In:** These questions ask you to write your answer in a grid.
- **Short Answer:** These questions ask you to write your answer in a short sentence or phrase.
- **Extended Response:** These questions ask you to write your answer in a paragraph or more.

To prepare for the math section, you should focus on developing your problem-solving skills. This means practicing different types of math problems and learning how to apply math concepts to real-world situations.

The PSAT 10 is an important test for 10th grade students. The test can help you qualify for the National Merit Scholarship Program and can also give you a good indication of your college readiness. By following the tips and strategies in this study guide, you can improve your score on the PSAT 10 and take the next step towards your college dreams.

Here are some practice questions to help you get a feel for the PSAT 10:

### **Reading Comprehension:**

Read the following passage and then answer the question:

> The United States is a nation of immigrants. From the Pilgrims who landed at Plymouth Rock to the Chinese who built the railroads, immigrants have played a vital role in shaping American history. Today, more than 40 million immigrants live in the United States, and they come from every corner of the globe.

What is the main idea of this passage?

A. Immigrants have played a vital role in shaping American history. B. The United States is a nation of immigrants. C. Today, more than 40 million immigrants live in the United States. D. Immigrants have come to the United States from every corner of the globe.

**Answer: A**

**Sentence Completion:**

Complete the following sentence by choosing the best word or phrase from the list of options:

> The students were very excited to learn that they had won the \_\_\_\_\_ scholarship.

A. prestigious B. generous C. important D. valuable

**Answer: A**

**Vocabulary:**

Define the following word:

> serendipitous

**Answer:** Occurring by chance in a happy or beneficial way.

**Analogies:**

Find the relationship between the following two words or phrases:

> pen : write

A. knife : cut B. hammer : nail C. book : read D. car : drive

**Answer:** C

**Multiple Choice:**

Choose the best answer from the list of options:

> Which of the following sentences is written correctly?

A. The dog barked at the mailman, and it ran away. B. The dog barked at the mailman and ran away. C. The dog, barked at the mailman, and ran away. D. The dog barked at the mailman and it, ran away.

**Answer:** B

**Essay:**

Write an essay on the following topic:

> The importance of education.

### **Multiple Choice:**

Choose the best answer from the list of options:

> What is the value of x in the following equation?

$$x + 5 = 10$$

A. 5 B. 10 C. 15 D. 20

**Answer:** A

### **Grid-In:**

Write your answer in the grid:

> What is the area of a circle with a radius of 5 inches?

**Answer:** 78.54

### **Short Answer:**

Write your answer in a short sentence or phrase:

> What is the Pythagorean theorem?

**Answer:**  $a^2 + b^2 = c^2$

### **Extended Response:**

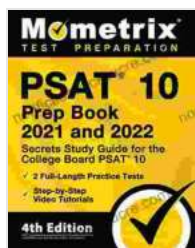

Write your answer in a paragraph or more:

> Explain how to solve a quadratic equation using the quadratic formula.

**Answer:** The quadratic formula is:

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

To solve a quadratic equation using the quadratic formula, you need to know the values of a, b, and c. Once you know the values of a, b, and c, you can plug them into the quadratic formula and solve for x.
